Digital Transformation in VET

Lecturers: Laureen Gadinger & Prof. Eveline Wittmann (Chair of Vocational Education)

Content

The course focuses on the aspect of digital data in networked infrastructures and in this respect sheds light on vocational pedagogy from the perspective of data. When dealing with data, the data collection process, data analysis - dissemination as well as data protection aspects associated with individual steps are addressed in each case. Furthermore, derivations and (pedagogical) concepts as well as the ideas of different authors on the aspects of personalization, ethics as well as technology coupling and organizational consequences are presented.
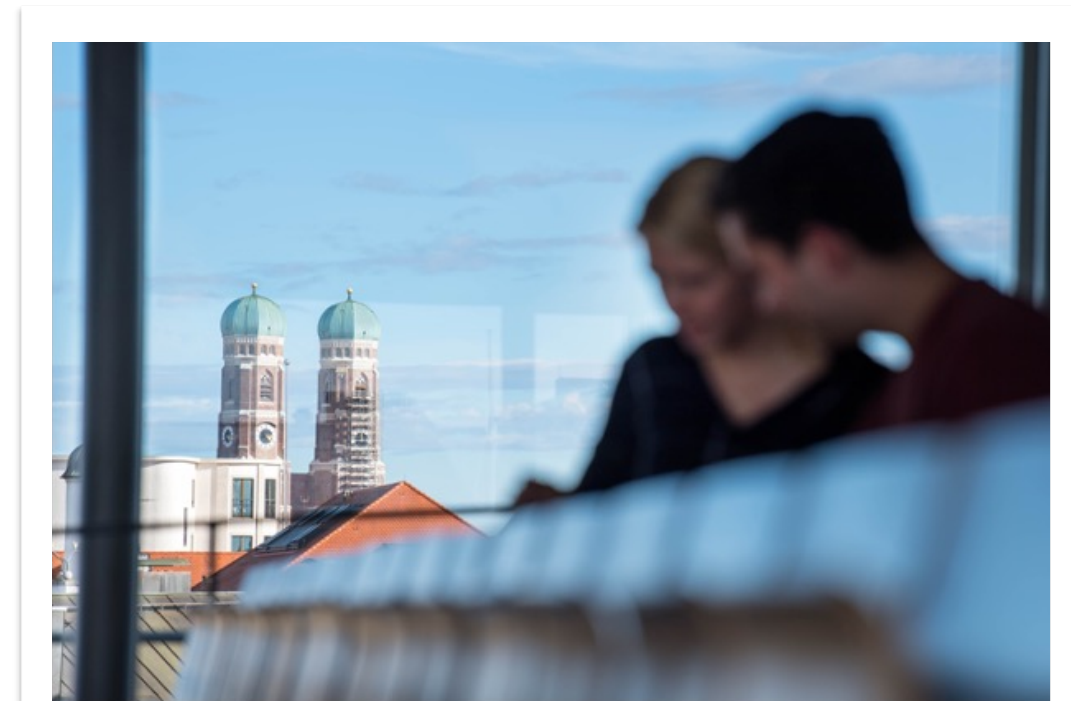

Assessment

Podcast

Topics

Digital Transformation, Data, Data Security, Organizational Concepts, Competencies

Submission

March 10, 2024

People and Organisational Development

Lecturers: Theresa Bauer & Prof. Manuel Förster (Professorship of Business Education)

Content

In this seminar, participants gain insight into the theory and practice of personnel and organizational development. The learning content, such as learning theories, is applied to your own workplace, and concrete scenarios are developed. You will work on a learning portfolio during the semester.
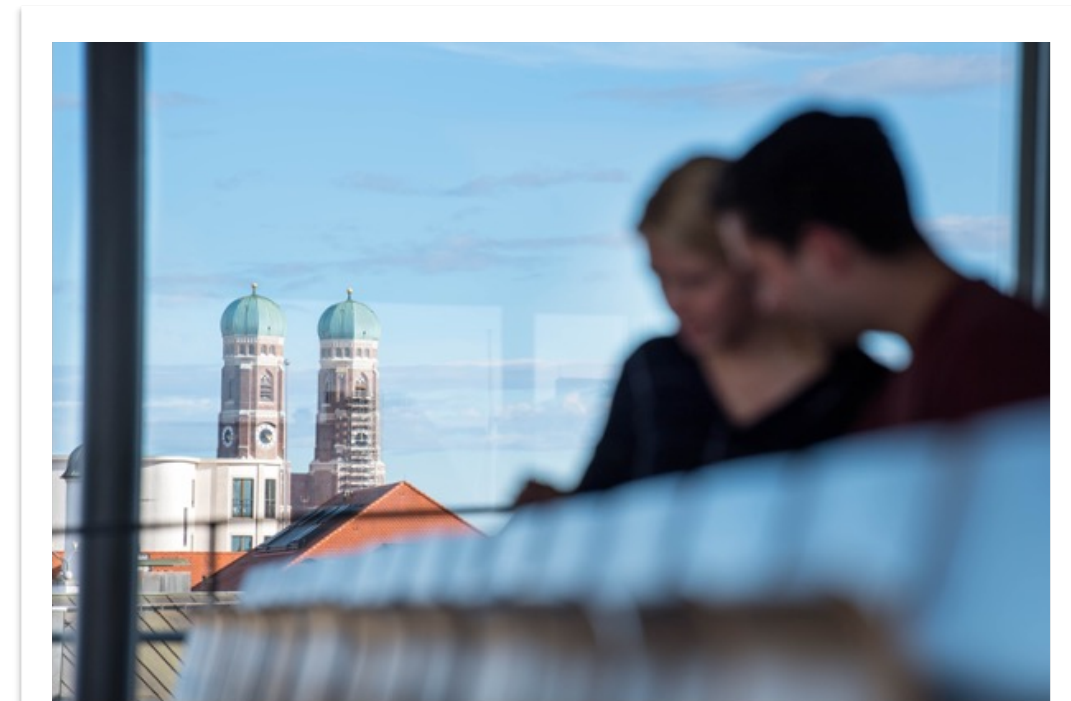

Assessment

Learning Portfolio

Topics

Personnel development, organizational development, change management, leadership styles and team building

Submission

March 6, 2024

Mentoring

Lecturers: Katharina Prummer & Hilal Calisir (Professorship of Technical Education)

| **Content** | We will provide you with monthly input that guides your professional development and the mentoring sessions throughout the semester. The input will include reflective questions you can include in the report. |

| **Assessment** | • Report (reflection-based)
• Mentoring Sessions (two self-organised IP-mentoring sessions; Mentoring sessions during the contact phase) |

| **Content** | Individual foci from mentoring sessions |

| **Submission** | April 14, 2024 |

- Write a report (min. 3 pages)

Topics

Communication skills; problem-solving skills; self-reflection; informed career decisions; personal and organizational development

Submission
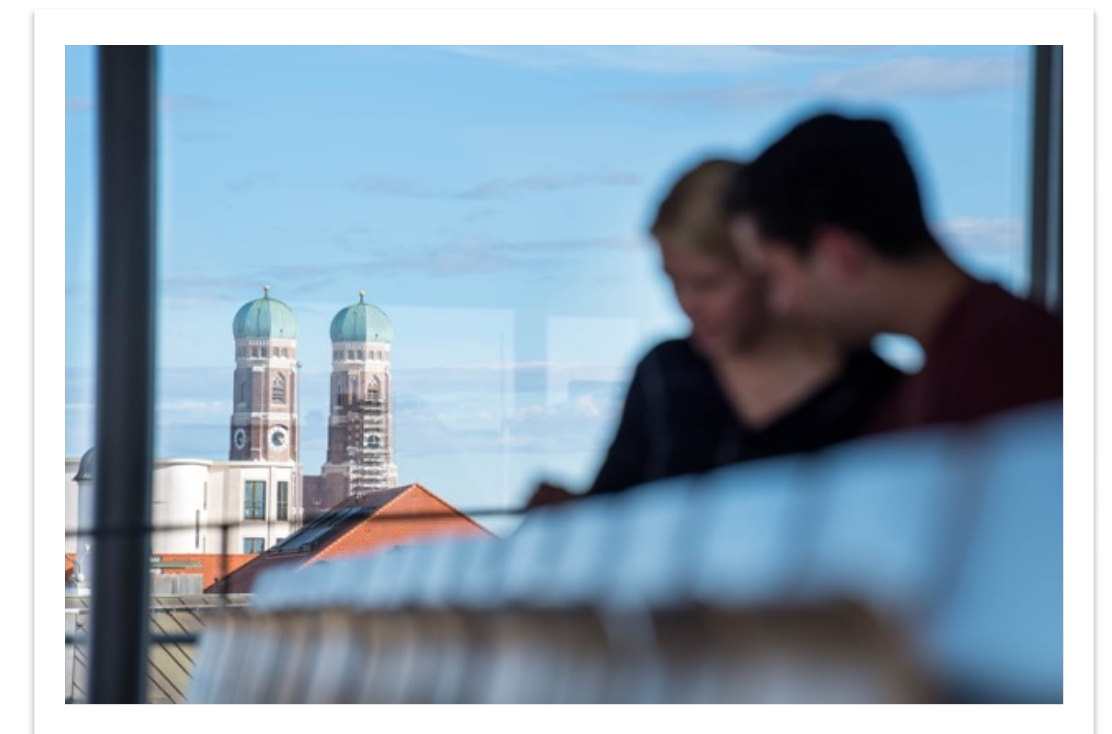

March 31, 2024

Job Shadowing - Next Steps
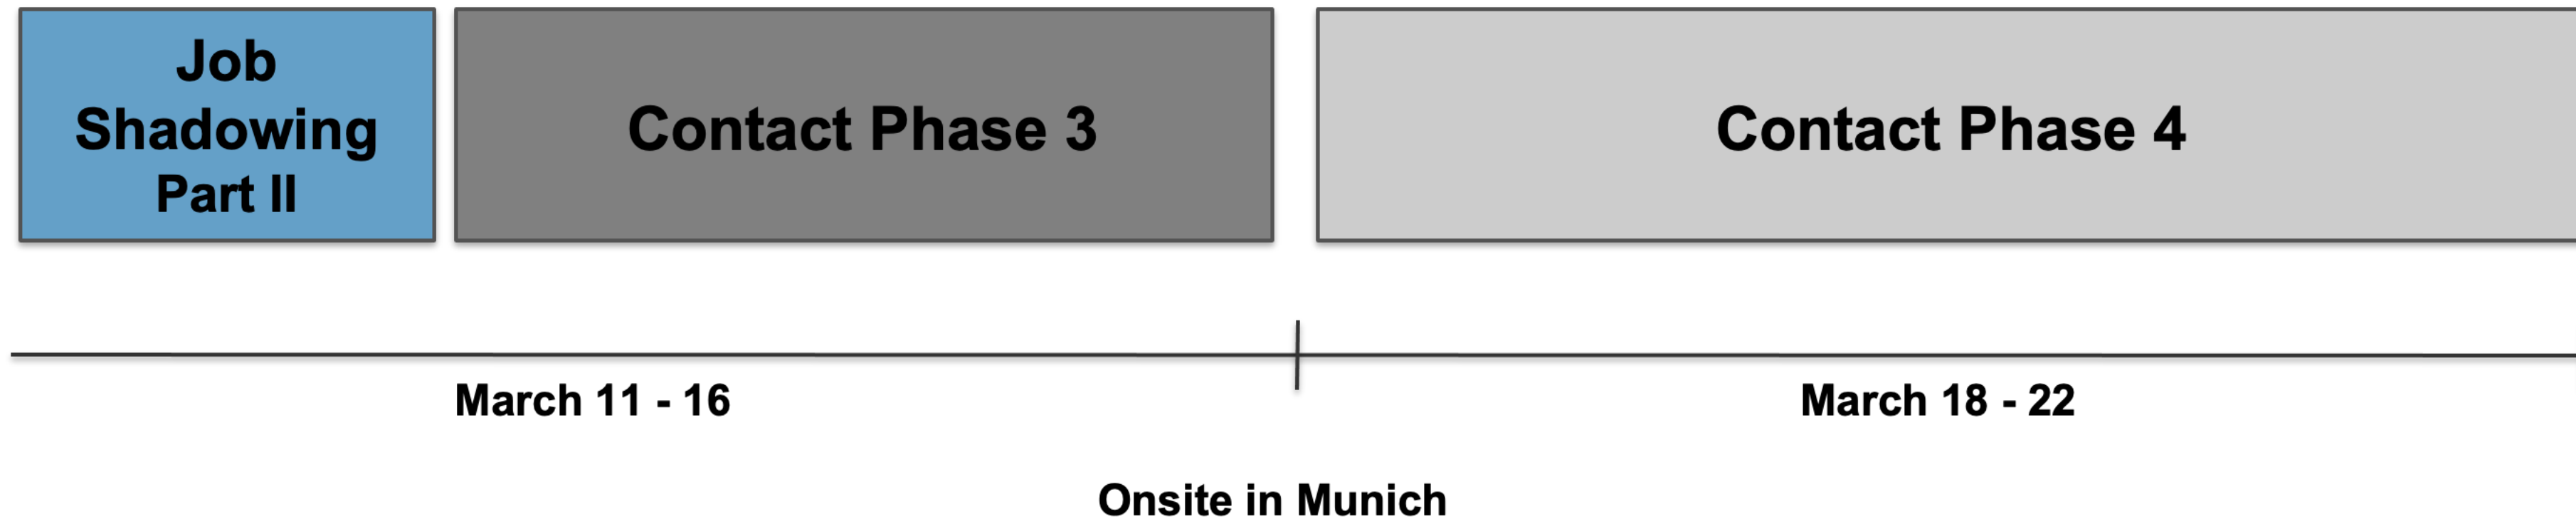

- **Material on Moodle**

    - Information documents

    - Job shadowing guide

    - Track your process tool

- November 28, 15.00 synchronous session

Think about the following:

- Have you talked to your IP mentor about job shadowing?

- Have you decided on the company/organisation you want to visit?

- Have you already established contact with them?

Contact phases 3 & 4

Job Shadowing Part II	Contact Phase 3	Contact Phase 4
	March 11 - 16	**March 18 - 22**

Onsite in Munich

- Contact Phase 3: March 11-16, 2024 (Saturday included)

- Contact Phase 4: March 18-22, 2024

- We start on Monday 11 March, at 9.00 and finish on Friday 22 March, at 16.00

- Make flight and hotel bookings as early as possible

Mentimeter

Which questions for the third semester do you have on your mind?
8 responses

Who will be teaching each course ?

Elaborate on the job shadowing

Can we start the job shadowing at any point before March and can we spread the 30 hours over a few weeks

What kind of organizations Will we visit in march ?

Will we have more synchronous session for the modules?

When we have to present our job shadowing plan? (Deadline) Company etc

How can we help the organizations where we job shadowing to contribute back ?

Tasks to submit?

5

Thank you for your attention!
