

Dear Vocational Education and Innovation Graduates,

As part of the upcoming **Skyline Networking & Graduation BBI@TUM** event, we're excited to include three special segments that highlight your voice and your work!

You will have the opportunity to **present your Master's thesis** as a poster **on 24 June** in a 10-minute slot and a 5-minute discussion. This is your moment to showcase your research, ideas, and impact in a creative and engaging way, and reflect briefly on your experience in the program.

◆ We encourage you to prepare a visual, poster-style summary of your thesis (please see the attached template).

◆ Think about how you can tell the story of your work in a way that sparks conversation.

We'd also like to feature your work on **25 June** in a **Gallery-Walk with your Master's theses posters**.

Finally, **on 25 June**, you will have the opportunity to participate in a **panel discussion** together with representatives from the steering committee, stakeholders, DLR-PT, and BMBF. Share your experience with us about what this journey meant to you, key takeaways or challenges, and how the program has shaped your perspective or career path.

We're really looking forward to showcasing your work and stories—you are at the heart of this celebration!

Please submit your posters digitally by 10 June to your advisor.

Warm regards,  
**The BBI@TUM Team**
